

Make a print out of the ears and glue them onto firm paper or cardboard. Cut out the Miffy ears along the dotted line (of course, you can colour them in first). Make a cut in each ear along the line as indicated and slide the ears into one another. Fasten them with tape. Use a perforator to make a small hole on both sides and use a piece of string or a rubber band to fasten Miffy's ears.

Punch a small hole

Make a cut
